

Telas Sheer Elegance
Colecciones Trasluz

Nuestras cortinas Sheer Elegance te ayudarán a decorar tus espacios de una manera única, elegante y diferente, gracias al estilo que le otorgan las líneas horizontales de las franjas, y a los exclusivos diseños de las telas que hacen parte de nuestro portafolio.

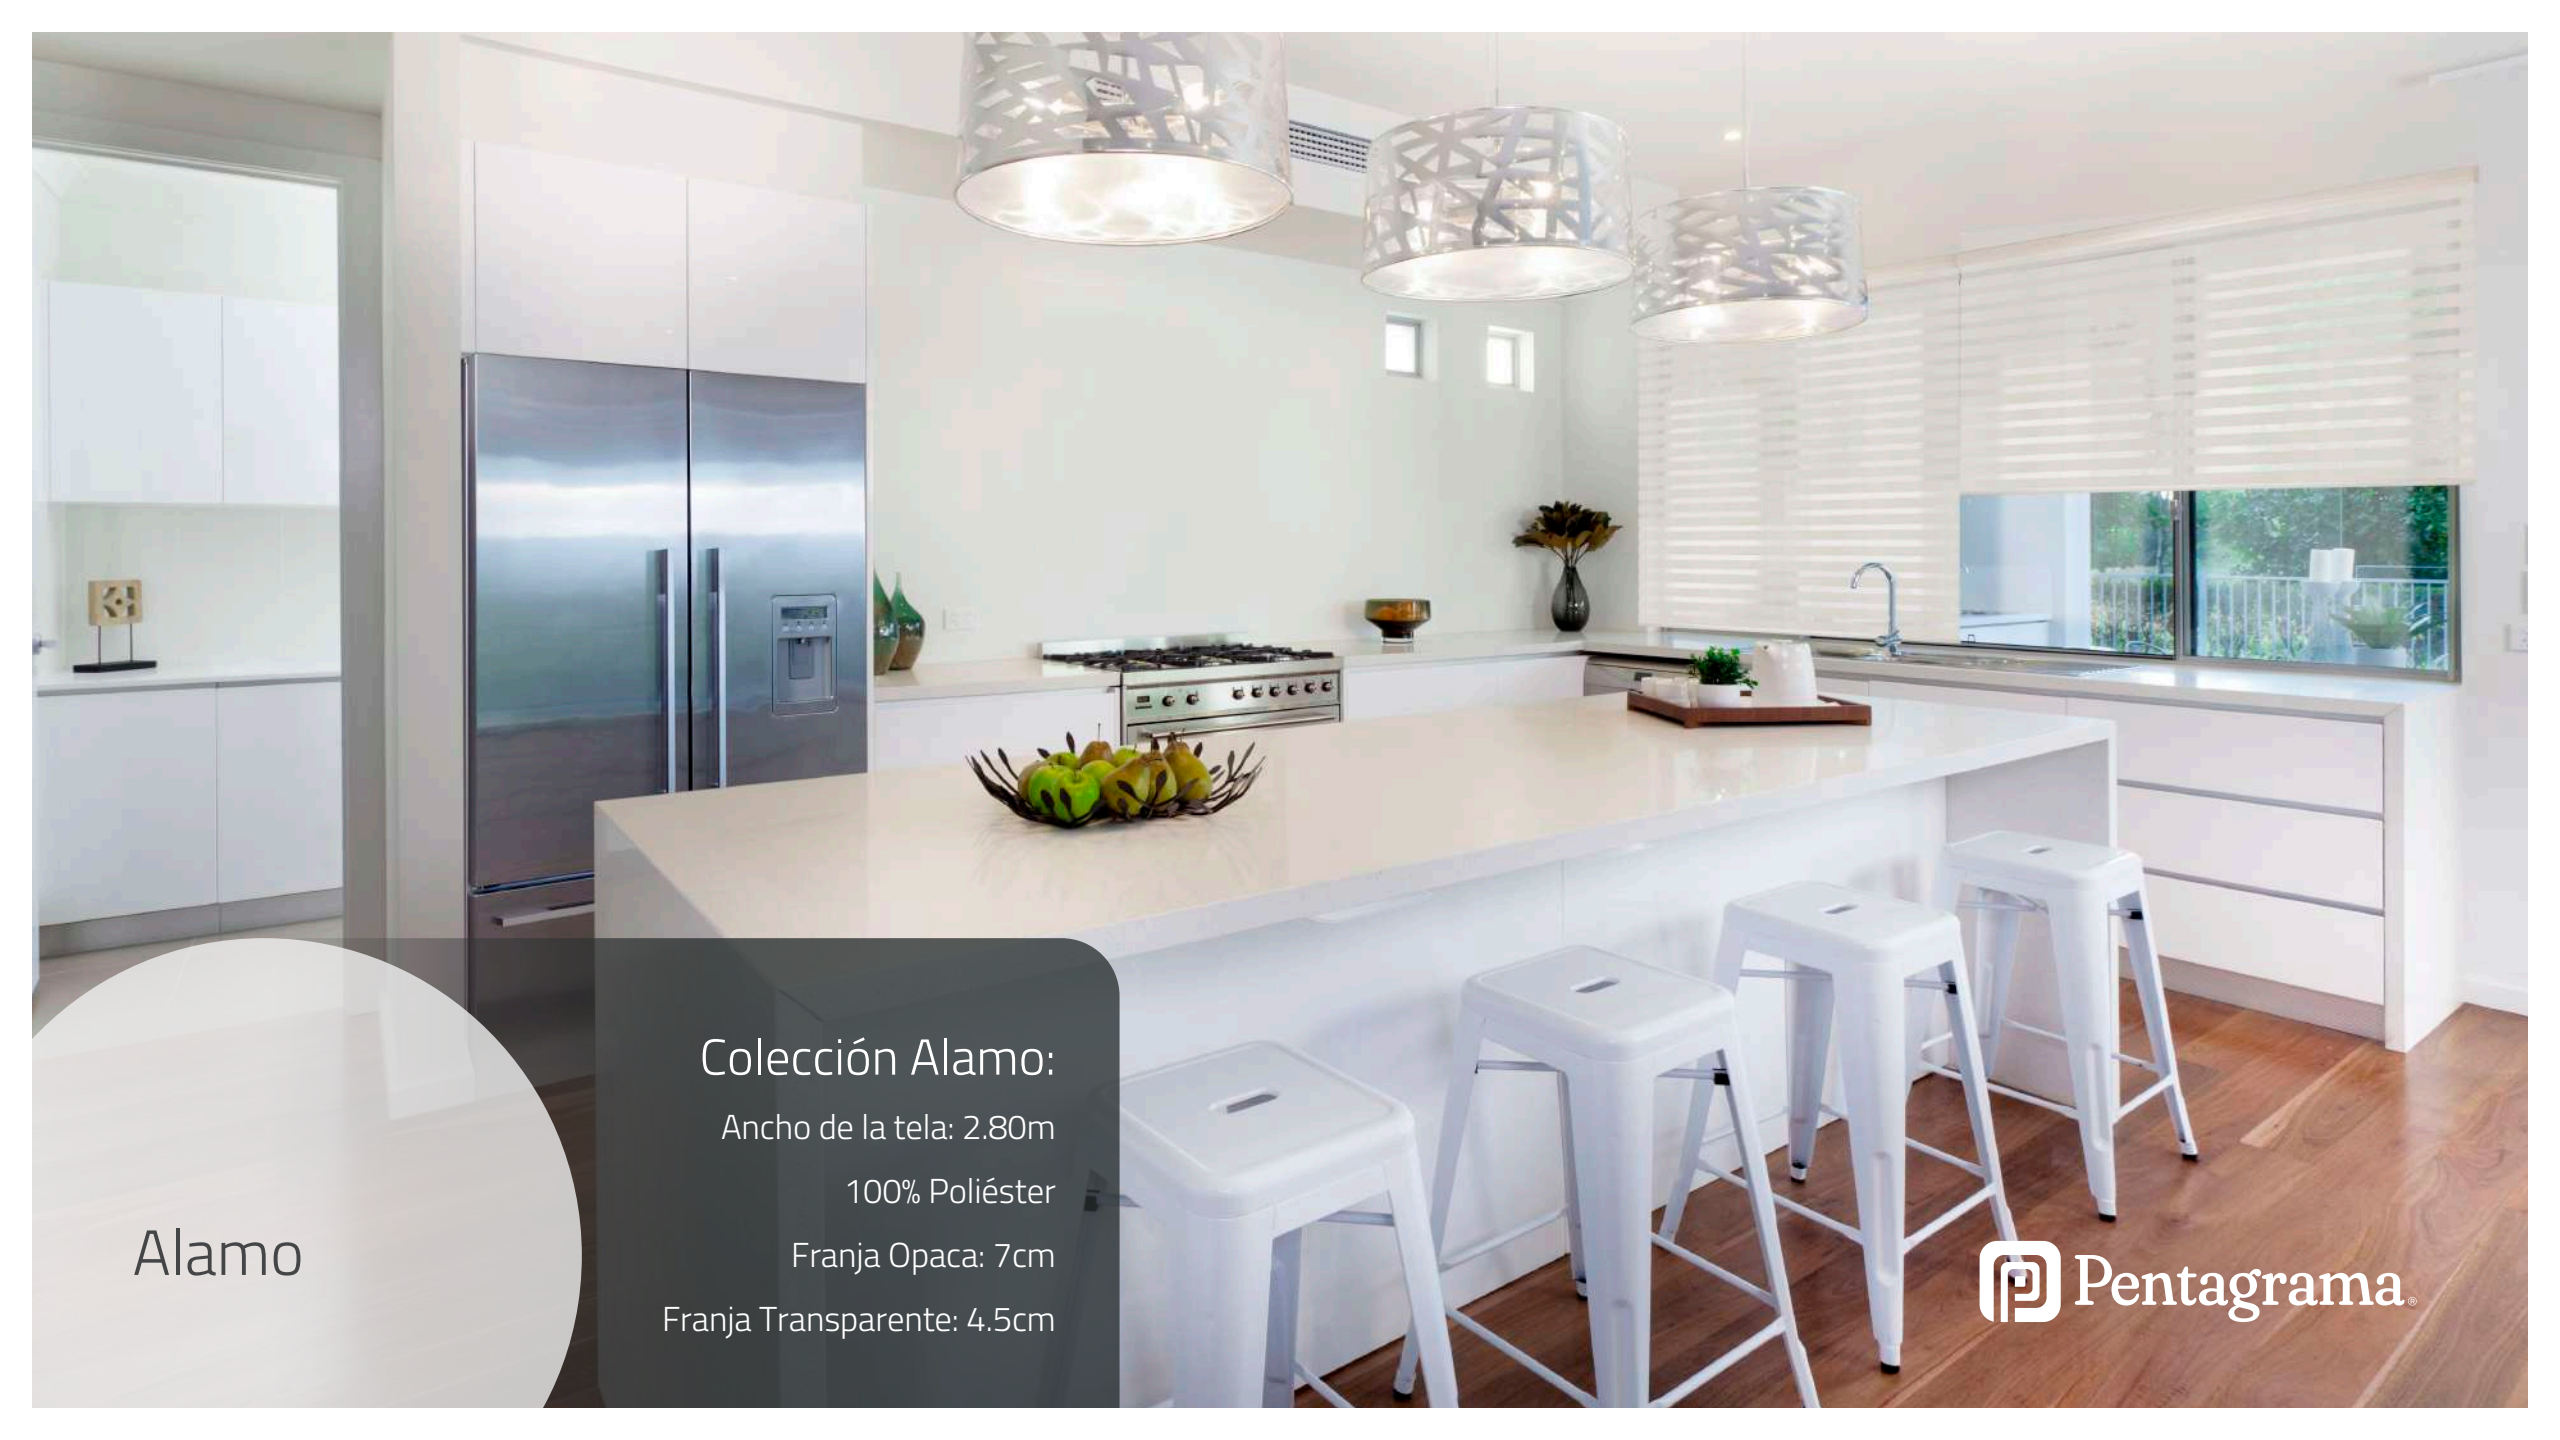

La Sheer Elegance es uno de los modelos de cortinas más eficientes de todo nuestro portafolio en cuanto al manejo de la luz, ya que gracias al sistema de doble tela y al juego que genera el movimiento de las franjas, el usuario puede controlar el nivel deseado de luz y privacidad.

En este catálogo web encontrarás un amplio portafolio de opciones de telas en poliéster tipo trasluz; 25 colecciones que están disponibles en una gama cromática moderna y variada. Algunas de estas colecciones están disponibles en tonos neutros, mientras que otras están disponibles en una gama cromática más amplia, que incluye colores audaces, que se adaptan a espacios con mucha personalidad.

Dentro de estas colecciones encontrarás telas planas, y otras con texturas especiales, formas y pliegues que le aportan calidez a los espacios.

Algunas de las referencias tienen hilos negros en la franja transparente, lo cual ayuda a dar mayor transparencia.

El secreto de nuestras Sheer Elegance no sólo está en la exclusiva y variada colección de telas, sino en las características únicas de nuestro sistema, entre las cuales vale la pena destacar el diseño del cabezal que permite una caída impecable de la tela, y el diseño del perfil inferior que fue pensado para acercar la tela de adelante a la de atrás, lo cual se traduce en un óptimo cierre.
